NON ACIDIC WHEEL CLEANER -LO15

Powerful non-acid based cleaner

NON-ACIDIC WHEEL CLEANER is a powerful cleaner designed to remove road film, oil, grease and brake dust from wheels and aluminium sided vehicles.

ADVANTAGES

Enhances the appearance of wheels and older aluminium bodies without the use of strong acids

Dilutes for economy in use

Does not harm concrete floors

TYPICAL APPLICATIONS

Non-Acidic Wheel Cleaner's high alkaline formula also removes unsightly oxide films from aluminium surfaces, cleaning and improving the appearance of aluminium without the use of toxic acids typically associated with aluminium cleaners. Due to the non acid formula the product does not harm concrete floors.

APPLICATION INSTRUCTIONS

Dilute Non-Acidic Wheel Cleaner between 1:4 and 1:30 and apply via brush or spray to surfaces and allow to stand for up to 5 minutes. Agitate stubborn deposits if required and hose off very thoroughly with water.

N.B. Do not allow product to dry out on surfaces. Always test painted surfaces, aluminium and alloy materials for compatibility prior to full application.

Non-Acidic Wheel Cleaner is designed to etch aluminium and alloy materials and as such may affect or change surface's appearance and finish.

Do not apply to anodised aluminium.
